TCSS 999: Building Useful Software

Instructor: Dr. Example. Office hours are Tuesdays 2:00–3:30 PM in Room 210.

Grading

Grading is labor-based. Completing all five artifacts earns a 4.0. Each missing artifact lowers the grade by 0.5.

Artifacts

Artifact 1 (personal website) is due Sunday, October 11, 2026 at 11:59 PM.

Artifact 2 (a tool you would use) is due Sunday, October 18, 2026 at 11:59 PM.

Artifact 3 (AI as an active component) is due Sunday, October 25, 2026 at 11:59 PM. Your repository must contain a log of plans and changes, and your portfolio card must include a reflection.

Policies

Late work is accepted up to 48 hours after the deadline with no penalty if you email the instructor before the deadline.

You must ask the instructor before using any paid API key for course work.

Final Moonshot

The team Moonshot project proposal is due November 15, 2026. Final presentations take place during finals week on December 10, 2026.

Decision from the October 19 class meeting: teams will have four members, and the instructor will assign teams by November 1.
